01 / PROFILE

I'm a **Senior CG Generalist and Technical Art Director** with 12 years of experience in 3D visualization, experiential design, and real-time environments.

Based in Dubai, I work across the full creative and technical pipeline — from concept renders and architectural visualization to stage design and Unreal Engine 5 productions. I've delivered work for **over 50 brands globally**, including TAG Heuer, Montblanc, Richard Mille, Warner Bros, and high-profile government events including the World Government Summit and G20 Saudi Arabia.

My workflow increasingly incorporates **AI tools for generation, animation, and automation** — keeping production timelines lean without compromising the quality of the final output.

02 / EXPERIENCE

TECHNICAL ART DIRECTOR

Sep 2024 – Present

Entourage Marketing & Events · Dubai

- Develop high-end 3D visualizations and stage concepts for major corporate events and luxury brand activations
- Build real-time environments in Unreal Engine 5 for immersive presentations and live event productions
- Translate creative concepts into build-ready production designs across the full pipeline — brief to delivery
- Collaborate with production teams, creative directors, and international brand partners

ARCHITECTURAL VISUALIZER

Mar – Aug 2024

Ambient Studio · Dubai

- Produced photorealistic architectural renderings and landscape visualizations for premium developments
- Modeled and rendered scenes for residential and commercial projects; assisted architects in visual storytelling

SENIOR 3D ARTIST

Sep 2022 – Feb 2024

OD Event · Dubai

- Produced high-quality 3D visualizations and immersive stage designs for large-scale events across the UAE
- Developed detailed stage concepts, set designs, and environment renders for international productions
- Collaborated with cross-functional creative and production teams

SELF-EMPLOYED DESIGNER

2012 – 2021

InDesign · Cairo, Egypt

- Delivered architectural and interior designs across residential, commercial, and hospitality sectors

03 / SKILLS

04 / EDUCATION

GEORGETOWN UNIVERSITY

Diploma — U.S. Foreign Policy

ARIZONA, USA

High School Diploma

05 / LANGUAGES

English Arabic

06 / AGENTIC AI SKILLS

AI DESIGN WORKFLOWS

Automated visual production pipelines using AI agents. Prompt-to-render workflows, batch image generation, and brand-consistent asset automation for events and brand activations at scale.

FULL-STACK APP DEVELOPMENT

Building complete web applications with frontend UI and backend APIs using AI-assisted coding tools — from interactive portfolios to client-facing 3D presentation platforms.

AUTOMATED MEDIA CREATION

End-to-end automated video and image content generation. AI-driven motion graphics, social media asset pipelines, and dynamic visual content delivered at machine speed.

AI-POWERED PRESENTATIONS

Real-time interactive pitch decks and immersive web experiences. Automated client proposal generation, 3D web embeds, and dynamic visual storytelling tools for luxury brands.

07 / MAJOR EVENTS & PROJECTS

◆ AI Qadsiah Festival 2024 & 2026	KSA
◆ Richard Mille AIUla Desert Polo	AIUla, KSA
◆ AI Fursan Cup	AIUla, KSA
